Communication Solutions delivers radio communication systems to keep event teams connected and coordinated.

Traffic & Parking Solutions delivers professional traffic management, traffic control planning, parking operations, and digital message boards for events of all sizes.

Perimeter Protection Solutions specializes in anti-ram vehicle barriers that help protect event perimeters and control access at key entry points.

Our solutions improve traffic flow, communicate critical information, and help ensure a safe and seamless arrival and departure experiences for attendees.

Security Screening Equipment delivers touchless, walk-through weapons screening with Evolv technology, helping venues accelerate entry, capture occupancy insights, and create a safer, more welcoming guest experience.

EMERGENCY MANAGEMENT GROUP-WASHINGTON
PREFERRED PARTNER
A Washington Non-Profit Organization

Mobile surveillance towers equipped with AI-powered analytics and drone detection deliver real-time insights into crowd movement, area occupancy, wait times, traffic flow, and security activity. Event operators and public safety partners gain actionable intelligence to enhance safety, streamline operations, and improve the guest experience.
